2. [] the Directorate General, Railroads, Berlin, that the State Secretariat for Supply intends to establish dumps for storing the large coal deliveries from Poland. The State Secretariat for Supply has applied to the Soviet Zone State Railroads for the assignment of suitable storage sites. **
3. The recent order received by the Greifswald regional railroad headquarters, which stated that its coal reserve be maintained at a level adequate for 13 days' operations, is due to the fact that this railroad district is rather remote from coal supply centers and therefore needs to maintain a larger coal reserve than the other railroad districts in the Soviet Zone.
